Version 1.0 - Version Stagiaire

# There's no such thing as a free lunch

Cette présentation est extraite de l'article :

Download me  
Saying yes to the Webs most dangerous search terms

# Principe

À l'image du film "Super-Size Me" nous allons voir ce qui se passe lorsque que nous surfons avec le gratuit.

# Principe

Une seule directive dire **"oui"** à tout et constater.

# Principe

La machine est équipée de :

- Mozilla Firefox avec Surf en anonyme
- Microsoft Security

Essentials

- Lavasoft's Ad-Aware

"free" possède la catégorie de risques la plus élevée

## Free wallpaper and free screensaver

Des aides au téléchargement sont proposées avec les logiciels,  
parmi celles-ci : <http://www.ilivid.com/>

## Free wallpaper and free screensaver

Après avoir utilisé cette précieuse aide, le nombre d'icônes présentes sur le bureau passe de 3 à 35 et de nouveaux composants additionnels viennent se greffer.

# Conclusion

Lorsque vous exécutez un logiciel à partir d'une source "non-sûre", le logiciel envoie des informations au sujet de votre système d'exploitation au "fabriquant" du logiciel, informations telles que :

- le modèle de votre ordinateur
- votre adresse IP
- vos programmes
- votre navigateur

# Conclusion

Et, si en plus, vous avez installé un logiciel pilier de l'AdWare, l'identifiant unique résultant des paramètres transmis sera associé à :
